ASIAN THINK TANK NETWORK FORUM 2026

DRIVING STRATEGIC INVESTMENT IN MALAYSIA

Aligning High-Value FDI with NIMP 2030, Resilient Supply Chains and Domestic Capabilities

Presented By

Masni Muhammad

Senior Executive Director of Investment Policy Advocacy

Malaysian Investment Development Authority (MIDA)

Delivered At

Resilient and Sustainable Supply Chains:

The Strategic Role of Foreign Direct Investment

8 October 2026

Investor Facilitation & Policy Predictability

IMFC Facilitation Hub

Unified whole-of-government platform accelerating project deployment and operational clearances.

Outcome-Based Fiscal Terms

Incentives structured around local supplier development, R&D intensity and knowledge transfer.

Global Tax Adaptation

Adapting to the Global Minimum Tax (GMT) through targeted non-tax support, investment facilitation and a stable, predictable policy environment.

MIDA Purview

Supplier Linkages & Domestic Value Creation

Foreign Anchor Commitments

- **Structured Mentorship**
  Guided onboarding into global tier-1 supply networks.
- **Technology Transfer**
  Co-developing components with domestic engineering firms.
- **Shared Facilities**
  Collaborative prototyping labs to lower capital entry barriers.

Domestic SME Enablement

- **Smart Manufacturing Transformation**
  Supporting the adoption of automation, AI, robotics and integrated production systems.
- **Global Certification**
  Funding ISO, cybersecurity, and ESG audit compliance.
- **Resilient Supply Chains**
  Domestic multi-sourcing reduces geopolitical risk.

Human Capital & Future Skills Pipeline

1 Co-Designed Curriculum

Aligning university and TVET programs directly with front-end IC design and clean-tech requirements.

2 Public-Private Academies

State-of-the-art training centers co-funded with industry consortiums for high-tech skills.

3 Direct Talent Delivery

Fast-tracked apprenticeships ensuring incoming investors access day-one technical engineering capacity.

STRATEGIC TAKEAWAY

Fostering Shared Resilience & Sustainable Growth

Policy Predictability + Local Supplier Linkages + Talent Co-Investment = **Durable Value & Supply Chain Resilience**

Transforming foreign investment from standalone assembly capacity into high-income national capability
