MINISTRY OF TRANSPORT

Republic of Uzbekistan
Established 01.02.2019

ensuring strategic development and sustainable functioning of transport communications

Ministry Mission

Creation of unified transport system providing conditions for sustainable economic growth of the Republic of Uzbekistan in the long term.

Regional Center for the Development of Transport and Communication Interconnectivity under the UN auspices

The transport and logistics sector is a strategic direction of development for the countries of Central Asia,

COVID-19 Regional Vulnerability **Pandemic Transport** **Revealed System**

Global and regional quarantine restrictions have led to the temporary closure of key transport corridors

One of the promising solutions is initiative announced by the President of the Republic of Uzbekistan at the 75th session of the UN General Assembly to create a Regional Center for the Development of Transport and Communication Relations Interconnectivity under the UN auspices

**COVID-19
RESPONSE**

Regional Center for the Development of Transport and Communication Interconnectivity under the UN auspices

This Center will be designed to promote

- ❖ Coordinated implementation of perspective projects
 - *(projects aimed for improving infrastructure)*
- ❖ Adoption of regional programs, projects and documents
 - *(programs related to develop employees, exchanging experience, improving the legal basis and other)*
- ❖ Integration of the transport network of the region into a single transport system
- ❖ Development of measures and proposals for the formation of new transport corridors
 - *(new corridors through the countries of the region to create more favorable conditions for hauliers of the Parties)*
- ❖ Improving mechanisms of tariff policy and simplifying customs regulation
 - *(reduction of tariffs and charges for the carriage of goods, simplification of tax burden)*
- ❖ Digitalization of the transport system
 - *(accelerating cargo delivery, reducing corruption, real-time tracking)*
